# U4 d'Uckange

Unusual · Moselle

| | |
|---|---|
| **GPS coordinates** | 49.30669, 6.16433 |
| **Elevation** | 155 m |
| **Maximum height** | 120 m max |
| **Access** | Direct access by car |
| **Nearest aerodrome** | Villerupt Aerodrome (LFAW)<br>23 km NW · spot 241 m lower |
| **Spot reference** | 312546 |

Spot location and restrictions (Drone-Spot map image)

## Sun (local times, UTC+01:00)

| Day | Dawn | Sunrise | Sunset | Dusk | Day length | Golden hour |
|---|---|---|---|---|---|---|
| **Sat 21 Nov** | 07:20 | 07:55 | 16:47 | 17:23 | 8 h 52 | 07:55–08:47 · 15:56–16:47 |
| **Sun 22 Nov** | 07:21 | 07:57 | 16:46 | 17:22 | 8 h 49 | 07:57–08:48 · 15:54–16:46 |
| **Mon 23 Nov** | 07:22 | 07:58 | 16:45 | 17:21 | 8 h 47 | 07:58–08:50 · 15:53–16:45 |

## Nearby aerodromes

| Aerodrome | Type | Distance | Elevation |
|---|---|---|---|
| Villerupt Aerodrome | Aerodrome | 23 km NW | 396 m |
| Doncourt Les Conflans Airfield | Aerodrome | 24 km SW | 245 m |
| Technopole 2000 Heliport | Heliport | 24 km S | 220 m |

## Description

A former blast furnace that is now a museum showcasing the history of the steel industry in Moselle. A magnificent place from the air, but be aware that the flight zones are quite limited.

**Scan to open the up-to-date spot page: weather, map and restrictions.**

https://www.drone-spot.tech/en/fiche-spot.aspx?id=312546

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

# Preparing the flight

## Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

## Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

*Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.*
