## Sun (local times, UTC+01:00)

| Day | Dawn | Sunrise | Sunset | Dusk | Day length | Golden hour |
|---|---|---|---|---|---|---|
| **Sat 21 Nov** | 07:49 | 08:24 | 17:20 | 17:55 | 8 h 56 | 08:24–09:15 · 16:29–17:20 |
| **Sun 22 Nov** | 07:50 | 08:25 | 17:19 | 17:54 | 8 h 53 | 08:25–09:16 · 16:28–17:19 |
| **Mon 23 Nov** | 07:52 | 08:27 | 17:18 | 17:54 | 8 h 51 | 08:27–09:18 · 16:27–17:18 |

## Nearby aerodromes

| Aerodrome | Type | Distance | Elevation |
|---|---|---|---|
| Centre Hospitalier J. Monod Heliport | Heliport | 12 km N | 51 m |
| Donville-Les-Bains Heliport | Heliport | 14 km N | 10 m |
| Le Val St Père | Aerodrome | 15 km SE | 8 m |
| Granville Airport | Airport | 16 km N | 14 m |

## Description

Vauban Huts no. 1/2/3 + access to "Le Port du Lude", reachable by the path that runs along the sea. It is up high, so watch out for the cliffs in some places. From Vauban Hut 1 there is a parking lot that gives access on foot to the places mentioned above. Huts 2 and 3 are quite far on foot. From hut no. 1, I recommend going through the forest down below, indicated by the sign. The path inevitably leads back to the foot of two cliffs, and you will find "Le Port du Lude" there. On your way back, you will find Vauban Hut no. 1, then the access to the parking lot or the access to hut no. 2, with a view of Mont Saint-Michel in clear weather.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

# Preparing the flight

## Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

## Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

*Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.*
