Aérodrome de Château-Arnoux - Saint-Auban	Aerodrome	21 km NE	460 m
Puimoisson Airfield	Aerodrome	22 km E	769 m

Description

The Buissonnades lakes are located south of the town of Oraison and consist of a swimming lake, a fishing lake with picnic tables, and a reserve lake. A pétanque court, a playground, an environmental discovery lectern made by the ONF, a fitness trail, a snack restaurant in summer, a beach volleyball court, ping-pong tables and more are available to summer visitors. Water games and stand-up paddle rentals let our vacationers enjoy pleasant moments in a cool, quiet setting. A book exchange box has also been set up at the lifeguard post. The town of Oraison is keen to preserve its natural areas. As a result, an insect hotel, subsidized by the Region and built entirely by the technical services teams and volunteers, has been installed near the fishing lake. Several nesting boxes for birds and bats, shelters certified by the LPO, have been placed all around the lake, as well as in the town …

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
