FLIGHT CARD

Generated on 21 November 2026

Cascade de la Vuzelle - Le Planay

Water · Savoie

GPS coordinates	45.41110, 6.72186
Elevation	1,663 m
Maximum height	120 m max
Access	On foot > 1,000 m
Nearest aerodrome	Centre de Secours de Courchevel Heliport 6.9 km W · spot 104 m lower
Spot reference	313012

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:07	07:40	16:58	17:30	9 h 18	07:40–08:26 · 16:12–16:58
Sun 22 Nov	07:09	07:41	16:57	17:30	9 h 15	07:41–08:28 · 16:11–16:57
Mon 23 Nov	07:10	07:43	16:56	17:29	9 h 13	07:43–08:29 · 16:10–16:56

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Centre de Secours de Courchevel Heliport	Heliport	6.9 km W	1,768 m
Courchevel Airport	Aerodrome	7.0 km W	2,006 m
Altisurface du Glacier de la Chiaupe	Aerodrome	9.9 km NE	3,100 m
Méribel Altiport	Aerodrome	11 km W	1,718 m

Description

You can't pass through the village of Le Planay on the way from Bozel to Pralognan-la-Vanoise without your eyes being drawn up to the heights to see the Vuzelle waterfall. You can get closer to admire it by taking a trail from the hamlet of Chambéranger or from the one at La Rochette. Near PRALOGNAN-LA-VANOISE

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
