TAILLEFER MASSIF - PLATEAU DES LACS

Mountain · Isère

GPS coordinates	45.05382, 5.92771
Elevation	2,052 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Altiport L'Alpe d'Huez - Henri GIRAUD (LFHU) 13 km E · spot 192 m higher
Spot reference	313312

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sun 22 Nov	07:11	07:43	17:01	17:34	9 h 18	07:43–08:29 · 16:15–17:01
Mon 23 Nov	07:12	07:45	17:01	17:33	9 h 16	07:45–08:31 · 16:15–17:01
Tue 24 Nov	07:13	07:46	17:00	17:32	9 h 14	07:46–08:32 · 16:14–17:00

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Altiport L'Alpe d'Huez - Henri GIRAUD	Aerodrome	13 km E	1,860 m
Altiport du Col De Belledonne	Aerodrome	13 km N	2,800 m
Les Deux Alpes Heliport	Heliport	16 km E	1,582 m
Altiport du Col de Sarenne	Aerodrome	18 km E	1,980 m

Description

The Plateau des Lacs (2050m) lets you admire Lac Fourchu, Lac Agneau, Lac de la Vache, Lac Noir, etc... From this plateau there is a superb view of the Dôme de la Lauze glacier at Les 2 Alpes (3650m) and the 3 Aiguilles d'Arves (3514m) Lac Canard is home to a remarkable peat bog that holds, deep within, perfectly preserved tree trunks, sheltered from any oxidation. They are the last remnants of the primeval forests.

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
