La Fullie	Heliport	19 km NE	1,394 m

Description

LAC SAINT ANDRÉ LES MARCHES A charming haven on the Route des Vins, listed as a "Grand site" of the Savoie department, Lac Saint-André is nestled at the foot of the colossal cliff of Mont-Granier. The lake is home to many birds, plants and insects that are protected by law because of their vulnerability. To ensure the preservation of this exceptional natural setting, swimming is now strictly prohibited in the fishing zone and the nature zone. In the unsupervised leisure area, swimming is tolerated at the users' own risk. Activities and parking around Lac de Saint-André are regulated: - the marked trail, the walkways and the fishing piers are off-limits to bikes, horses and motorized vehicles - wild camping and parking of motorhomes at the lake's edge are prohibited and will be penalized - motorized vehicles, open fires, amplified sound and privately organized parties are prohibited and …

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
