Annot

Mountain · Alpes-de-Haute-Provence

GPS coordinates	43.96871, 6.68802
Elevation	792 m
Maximum height	120 m max
Access	On foot > 1,000 m
Nearest aerodrome	Altisurface de Thorame--Haute Les Serres 20 km NW · spot 1,076 m lower
Spot reference	313558

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:04	07:36	17:02	17:34	9 h 26	07:36–08:20 · 16:18–17:02
Sun 22 Nov	07:05	07:37	17:02	17:33	9 h 24	07:37–08:22 · 16:17–17:02
Mon 23 Nov	07:07	07:38	17:01	17:33	9 h 22	07:38–08:23 · 16:16–17:01

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Altisurface de Thorame--Haute Les Serres	Aerodrome	20 km NW	1,868 m
Altisurface de Thorame--Haute Les Serres (2)	Aerodrome	20 km NW	1,950 m
Col de Lèques	Aerodrome	21 km SW	1,126 m
Altisurface de Thorame--Haute Chamatte	Aerodrome	22 km NW	2,081 m

Description

The Grès d'Annot is one of the few places in the world with such spectacular rock formations. The sandstone formed about 40 million years ago from underwater avalanches of sand and mud. During the formation of the Alps, the whole area was fractured and deformed, which gives it its distinctive look.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
