Plan d'eau des Salettes in Mormoiron

Water · Vaucluse

GPS coordinates	44.06932, 5.19911
Elevation	252 m
Maximum height	50 m max
Access	Direct access by car
Nearest aerodrome	Aérodrome de Carpentras (LFNH) 11 km SW · spot 132 m higher
Spot reference	313668

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:10	07:42	17:08	17:40	9 h 25	07:42–08:27 · 16:23–17:08
Sun 22 Nov	07:12	07:43	17:07	17:39	9 h 23	07:43–08:28 · 16:22–17:07

Description

The swimming spot in Mormoiron: The lake with a sandy beach, lined with pine trees, is located in the heart of a vineyard area producing the appellation d'origine contrôlée Muscat de Hambourg and AOC Ventoux wines. The site offers many activities: hiking, orienteering courses, mountain biking, and a forest adventure course with "Ventoux Aventure". Swimming is supervised by lifeguards during the summer season. Fishing is open all year round with a permit available at www.peche-vaucluse.com (in summer: allowed until 10 a.m. and after 6 p.m.). On the lakeside, the restaurant "la Cahute" with a shaded terrace and panoramic view welcomes you. Free entry to the site, picnics allowed.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
