FLIGHT CARD

Generated on 21 November 2026

Lac du Rioutard

Water · Var

GPS coordinates	43.55466, 6.69027
Elevation	259 m
Maximum height	50 m max
Access	On foot > 1,000 m
Nearest aerodrome	Fayence Glider Field (LFMF) 6.3 km N · spot 33 m higher
Spot reference	313751

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour

Fayence Glider Field	Aerodrome	6.3 km N	226 m
Hôpital Bonnet Heliport	Heliport	14 km S	21 m
Hôpital Clavary Heliport	Heliport	21 km E	168 m
Cannes-Mandelieu Airport	Airport	21 km E	4 m

Description

A small road lined with maritime pines and cork oaks leads to Lac du Rioutard, around which a botanical trail has been laid out, showcasing the tree species found in Provence. It's an easy walk, doable with young children. Located near the village of Saint Paul en Forêt, this hard-to-reach body of water is nestled deep in the forest. Bordered by a small path, it is well suited to roving lure fishing for the few predator species present. A few clear spots also allow other techniques such as coarse fishing, feeder fishing or English-style float fishing. It's a very calm and wild place, perfect for enjoying fishing in excellent conditions.

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
