FLIGHT CARD

Generated on 21 November 2026

Azores Archipelago, Sao Miguel Island

Water · Portugal

GPS coordinates	37.87296, -25.77084
Elevation	260 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Hospital do Divino Espirito Santo Heliport 16 km SE · spot 167 m higher
Spot reference	313779

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC−01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour

Aerodrome	Type	Distance	Elevation
Hospital do Divino Espirito Santo Heliport	Heliport	16 km SE	93 m
João Paulo II Airport	Major airport	16 km SE	79 m

Description

In the western part of the island of Sao Miguel lie the superb lakes of Sete Cidades, in the middle of a vast caldera formed by a volcanic eruption. You'll also find a magnificent coastline between the Ferraria lighthouse and the village of Mosteiros, with high cliffs, black sand beaches and ancient lava flows. Azores Archipelago - Portugal - August 2022

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
