Northernmost point of the Loire

Water · Loiret

GPS coordinates	47.90408, 1.95627
Elevation	102 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	La Source Heliport 8.2 km S · spot 6 m lower
Spot reference	313889

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:33	08:07	17:09	17:43	9 h 02	08:07–08:57 · 16:20–17:09
Sun 22 Nov	07:34	08:08	17:08	17:43	8 h 59	08:08–08:58 · 16:18–17:08
Mon 23 Nov	07:35	08:10	17:07	17:42	8 h 57	08:10–09:00 · 16:17–17:07

La Source Heliport	Heliport	8.2 km S	108 m
Orléans – Saint-Denis-de-l'Hôtel Airport	Aerodrome	15 km E	121 m
Orléans-Bricy (BA 123) Air Base	Airport	17 km NW	126 m

Description

The northernmost point of the Loire is at Saint Jean de Braye. A stele marks it in a park next to the canal and the river.

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
