FLIGHT CARD

Generated on 21 November 2026

Le Logéo

Water · Morbihan

GPS coordinates	47.55027, -2.84564
Elevation	0 m
Maximum height	120 m max
Access	On foot > 1,000 m
Nearest aerodrome	Chubert Centre Hospitalier Heliport 15 km NE · spot 10 m lower
Spot reference	313972

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:51	08:25	17:29	18:03	9 h 04	08:25–09:14 · 16:40–17:29
Sun 22 Nov	07:52	08:26	17:29	18:03	9 h 02	08:26–09:16 · 16:39–17:29
Mon 23 Nov	07:54	08:28	17:28	18:02	8 h 59	08:28–09:17 · 16:38–17:28

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Chubert Centre Hospitalier Heliport	Heliport	15 km NE	10 m
Quiberon Airport	Aerodrome	21 km W	11 m
Vannes-Meucon Airport	Airport	21 km NE	136 m

Description

The port of Logeo is an authentic Breton port, with its boats on moorings and its tenders at the quay drying out quietly against a stone wall. VIEW from the port of Logéo Accessible by car

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
