FLIGHT CARD

Generated on 21 November 2026

Notre Dame de Conche and Lake Castillon

Mountain · Alpes-de-Haute-Provence

GPS coordinates	43.90507, 6.55128
Elevation	1,088 m
Maximum height	50 m max
Access	On foot < 1,000 m
Nearest aerodrome	Col de Lèques 8.2 km SW · spot 38 m lower
Spot reference	314162

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:05	07:36	17:03	17:35	9 h 26	07:36–08:21 · 16:19–17:03

Mon 23 Nov	07:07	07:39	17:02	17:33	9 h 23	07:39–08:24 · 16:17–17:02

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Col de Lèques	Aerodrome	8.2 km SW	1,126 m
Altisurface de Thorame--Haute Les Serres (2)	Aerodrome	23 km N	1,950 m
Altisurface de Thorame--Haute Les Serres	Aerodrome	24 km N	1,868 m

Description

View of the former hamlet of Ville and its chapel of Saint Fortunat. A medieval castle once stood on the ridge overlooking the site. The ridge above the chapel of Notre Dame de Conche offers superb panoramic views with the drone.

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
