Castel Nuovo, Alpes Maritimes

Heritage · Alpes-Maritimes

GPS coordinates	43.79710, 7.29485
Elevation	702 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Princess Grace Hospital Helipad 12 km SE · spot 599 m higher
Spot reference	314325

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:01	07:33	17:00	17:32	9 h 27	07:33–08:17 · 16:16–17:00
Sun 22 Nov	07:03	07:34	17:00	17:31	9 h 25	07:34–08:19 · 16:15–17:00
Mon 23 Nov	07:04	07:35	16:59	17:31	9 h 23	07:35–08:20 · 16:14–16:59

Princess Grace Hospital Helipad	Heliport	12 km SE	103 m
Hôpital L'Archet 2 Heliport	Heliport	12 km SW	185 m
Hôpital Lenval Heliport	Heliport	13 km S	35 m
Monaco Heliport	Heliport	13 km SE	6 m

Description

The ruins of Castel Nuovo sit on a spur of Mont Macaron above Nice, in the Alpes Maritimes. You need to park in the car park at the bottom of the hill. You can get to the ruins either by following the road or by taking the trail that starts near the car park. Dronespot rejected the first upload of this video (positioning error?) even though there are already several videos of this ruined village... So I am entering the flight data from my Mini 3 Pro as the coordinates. This flight zone is authorized by the Géoportail up to 120m high!

Scan to open the up-to-date spot page: weather, map and restrictions.

https://www.drone-spot.tech/en/fiche-spot.aspx?id=314325

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
