Trixhes Nollet Scenic Site in Hayen (Sprimont)

Heritage · Belgium

GPS coordinates	50.54944, 5.62984
Elevation	257 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	Sart Tilman heliport (EBLS) 5.2 km NW · spot 22 m higher
Spot reference	314469

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Montegnee / CHC Heliport	Heliport	12 km NW	174 m
Grâce-Hollogne Agusta Heliport	Heliport	16 km NW	180 m

Description

Crossed by a small stream, the Rothy, Trixhe-Nollet is a valley of several hectares, very typical for its scenic qualities, its many swallow holes and wetlands, and the remains of iron mining operations, which were already mentioned in 1192.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
