The Puy-de-Dôme, the Highest of the Auvergne Volcanoes

Mountain · Puy-de-Dôme

GPS coordinates	45.77171, 2.96334
Elevation	1,433 m
Maximum height	120 m max
Access	On foot > 1,000 m
Nearest aerodrome	Centre Hospitalier Heliport 10 km E · spot 1,017 m higher
Spot reference	314619

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:23	07:56	17:12	17:45	9 h 15	07:56–08:43 · 16:25–17:12
Sun 22 Nov	07:25	07:57	17:11	17:44	9 h 13	07:57–08:44 · 16:24–17:11

Description

THE HIGHEST VOLCANO OF THE CHAÎNE DES PUYS - LIMAGNE FAULT EXPLORE THE PUY DE DÔME, A GRAND SITE DE FRANCE At the gates of the Clermont metropolitan area, the most beautiful volcanoes of the Chaîne des Puys trace a horizon of rounded volcanic ridges THE PUY DE DÔME The Puy de Dôme is the highest summit of the Chaîne des Puys - Limagne Fault tectonic site, listed as a UNESCO World Heritage Site in July 2018. It offers visitors a breathtaking 360° view over the 80 volcanoes of varied shapes lined up over 45 km in length and 5 km in width... A GRAND SITE DE FRANCE, the Puy de Dôme is both protected and developed. This symbolic place, steeped in history, can be visited all year round. The trails that run through it and its altitude of 1465 m make it a true escape, on land as in the air. Before heading to the Puy de Dôme, how can you be sure the view will be clear? Two webcams installed by ...

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
