FLIGHT CARD
Generated on 21 November 2026

Free-flight area La Loge des Gardes

Mountain · Allier

GPS coordinates	46.00463, 3.79427
Elevation	1,105 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Roanne-Renaison Airport (LFLO) 17 km E · spot 767 m higher
Spot reference	314637

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Description

Flying wing takeoff from the Loge des Gardes (ski resort) in the Loire. Access: Park your vehicle at the resort and walk 300 m along the Sainte Marie des Bois path. Direct access by car for reduced-mobility visitors. Hand-icar practice site Trip from the parking lot to the technical area: 5 minutes Reduced-mobility access: yes Description: takeoff altitude 1103 m, 450 m of elevation difference, with a 9.5 km turn; the landing is a bit far away at a glide ratio of 6.5. When landing, watch out for crops and animals. https://federation.ffvl.fr/sites_prat... Cinematic drone footage, DJI Mini 2 #drone #djimini2 #lalogedesgardes #stationdeski #Loire Music credit: Title: Are We Dreaming Artist: Eunola

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
