FLIGHT CARD

Generated on 23 November 2026

Malmy

Heritage · Ardennes

GPS coordinates	49.60437, 4.85364
Elevation	164 m
Maximum height	50 m max
Access	On foot < 1,000 m
Nearest aerodrome	Sédan Douzy Airfield (LFSJ) 15 km NE · spot 8 m higher
Spot reference	314695

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Mon 23 Nov	07:28	08:04	16:50	17:26	8 h 45	08:04–08:57 · 15:57–16:50
Tue 24 Nov	07:30	08:06	16:49	17:25	8 h 42	08:06–08:59 · 15:56–16:49
Wed 25 Nov	07:31	08:07	16:48	17:24	8 h 40	08:07–09:00 · 15:55–16:48

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Sédan Douzy Airfield	Aerodrome	15 km NE	156 m
Centre Hospitalier Heliport	Heliport	21 km NW	176 m
Charleville-Mézières Ardennes-Etienne Riché Airfield	Airport	25 km NW	150 m

Description

Romanesque church from the 13th century. The square tower rising above the former transept, now without its side aisles, dates from the Romanesque period, as do the flat chevet and the large arcades. The portal, in a rough style, with an irregular round arch carved with leaves, is undoubtedly later than the rest of the building.

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
