The Méouge Gorges

Mountain · Hautes-Alpes

GPS coordinates	44.27733, 5.79377
Elevation	570 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Aérodrome de Sistéron-Vaumeilh (LFNS) 11 km E · spot 30 m higher
Spot reference	314955

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:09	07:40	17:05	17:37	9 h 24	07:40–08:25 · 16:20–17:05
Sun 22 Nov	07:10	07:42	17:04	17:36	9 h 22	07:42–08:27 · 16:19–17:04
Mon 23 Nov	07:11	07:43	17:04	17:35	9 h 20	07:43–08:28 · 16:18–17:04

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Aérodrome de Sistéron-Vaumeilh	Aerodrome	11 km E	540 m
La Motte du Caire Glider Field	Aerodrome	20 km E	650 m
Altisurface du Grand Terrus	Aerodrome	20 km NW	875 m
Serres - La Bâtie-Montsaléon Airfield	Aerodrome	21 km N	715 m

Description

Classified as a biological reserve, the Méouge gorges, located near Châteauneuf-de-Chabre, are a cool haven in summer for nature-loving walkers and swimming fans. In spring or after heavy rain, the waters of the Méouge also attract kayakers. Along the river, the walk lets you admire, besides the many natural riches of this protected area, a medieval bridge with three arches and the ruins of a mill. Natura 2000 site. Located 5 km south of Laragne, the Méouge gorges are classified as a biological reserve and are a true gem of the department. Named a Wonder of the Hautes-Alpes, the Méouge gorges are bathed in warmth and light and are a well-known spot for swimming and walks. Deep, winding gorges surround a fiery torrent that leaps in cascades, forming whirlpools, pools, beaches of polished pebbles, natural basins... Even lovers of old stones will be pleased, admiring an old Romanesque bridge ...

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
