FLIGHT CARD

Generated on 21 November 2026

Grütschalp - Lauterbrunnen

Mountain · Switzerland

GPS coordinates	46.59519, 7.89018
Elevation	1,508 m
Maximum height	150 m max
Access	On foot < 1,000 m
Nearest aerodrome	Lauterbrunnen Heliport (LSXL) 2.1 km SE · spot 711 m higher
Spot reference	315510

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:06	07:39	16:50	17:23	9 h 10	07:39–08:27 · 16:02–16:50
Sun 22 Nov	07:07	07:40	16:49	17:22	9 h 08	07:40–08:28 · 16:01–16:49
Mon 23 Nov	07:08	07:42	16:48	17:21	9 h 06	07:42–08:30 · 16:00–16:48

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Lauterbrunnen Heliport	Heliport	2.1 km SE	797 m
Gsteigwiler Heliport	Heliport	5.9 km N	682 m
Reichenbach Air Base	Aerodrome	16 km W	727 m
Meiringen Airport	Aerodrome	24 km NE	578 m

Description

Very beautiful viewpoint facing the three great peaks of the Lauterbrunnental: the Eiger (3,967 m), the Mönch (4,110 m) and the Jungfrau (4,158 m), just steps from the arrival station of the Lauterbrunnen→ Grütschalp cable car and the BLM railway station → Flying a drone weighing more than 250 grams is prohibited throughout the Lauterbrunnen valley. However, drones weighing 250 grams or less, such as those in the DJI Mini range, are allowed. This is shown by clicking on the map issued by the Bundesamt für Zivilluftfahrt (Federal Office of Civil Aviation) https://www.bazl.admin.ch/bazl/fr/home/drohnen/general/drone-maps.html Near INTERLAKEN

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
