FLIGHT CARD

Generated on 21 November 2026

St Genis, the Riou lake

Water · Hautes-Alpes

GPS coordinates	44.36958, 5.77275
Elevation	672 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Serres - La Bâtie-Montsaléon Airfield (LFTM) 10 km N · spot 43 m lower
Spot reference	315736

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:09	07:41	17:05	17:37	9 h 24	07:41–08:26 · 16:20–17:05

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Serres - La Bâtie-Montsaléon Airfield	Aerodrome	10 km N	715 m
Altisurface du Grand Terrus	Aerodrome	12 km NW	875 m
Aérodrome de Sistéron-Vaumeilh	Aerodrome	15 km SE	540 m
Aérodrome d'Aspres-sur-Buëch	Aerodrome	17 km N	831 m

Description

This 16 ha lake will delight nature lovers. Tree-lined beaches with grass and gravel. Swimming on 2 beaches, one of which is supervised in summer. Located between Eyguians and Saint Genis, it offers picnic tables, barbecues and play areas. Pedal boat, stand-up paddle and canoe rentals at the water sports center. A snack bar offers drinks, ice cream and light meals. Toilets on site. Please remember that, for everyone's hygiene and safety, activities at the Riou leisure area are governed by several municipal orders: - Swimming is prohibited when the red flag is raised, - Only fires in barbecues are allowed, - Dogs must be kept on a leash and are not allowed in swimming areas, on the beaches or behind the beaches, - Wild camping is prohibited, - Motorhomes may park for a maximum of 48 hours.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
