Ferrette Castle

Heritage · Haut-Rhin

GPS coordinates	47.49342, 7.31847
Elevation	550 m
Maximum height	30 m max
Access	On foot < 1,000 m
Nearest aerodrome	Dittingen Airport (LSPD) 14 km SE · spot 14 m higher
Spot reference	315923

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:10	07:44	16:49	17:23	9 h 04	07:44–08:33 · 16:00–16:49
Sun 22 Nov	07:12	07:46	16:48	17:22	9 h 02	07:46–08:35 · 15:59–16:48

Aerodrome	Type	Distance	Elevation
Dittingen Airport	Aerodrome	14 km SE	536 m
EuroAirport Basel-Mulhouse-Freiburg Airport	Major airport	19 km NE	270 m
Bressaucourt Airport	Aerodrome	25 km SW	569 m

Description

It was on a rocky peak rising to 612 m above the town of Ferrette that Frédéric I of Ferrette, son of Thierry I, Count of Montbéliard, had Ferrette Castle built, most likely on the foundations of a Roman watchtower.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
