Chassiron Lighthouse on Oléron

Heritage · Charente-Maritime

GPS coordinates	46.04645, -1.41006
Elevation	-219 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	St Pierre d'Oléron Airfield (LFDP) 12 km SE · spot 225 m lower
Spot reference	316010

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:42	08:14	17:29	18:01	9 h 14	08:14–09:01 · 16:42–17:29
Sun 22 Nov	07:43	08:16	17:28	18:01	9 h 11	08:16–09:03 · 16:41–17:28
Mon 23 Nov	07:44	08:17	17:27	18:00	9 h 09	08:17–09:05 · 16:40–17:27

Centre Hospitalier Heliport	Heliport	24 km NE	15 m

Description

Explore the breathtaking beauty of the Île d'Oléron from a unique angle in these superb aerial images. Witness the magic of the Chassiron Lighthouse, often considered the most beautiful lighthouse in France, as we take you on an exciting flyover of the Chassiron lighthouse. Our DJI 4K mini drone captures the best of the Île d'Oléron, showcasing its picturesque landscapes and revealing the best places to visit on your trip. From the rugged coastline to charming villages, get ready to discover the hidden gems of Charente Maritime. Whether you're looking for inspiration on what to do on Oléron or simply want to escape to a peaceful paradise, this video is made for you. So sit back, relax and let the aerial views of the Île d'Oléron transport you to a world of beauty and wonder.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
