Le pic des mouches

Mountain · Bouches-du-Rhône

GPS coordinates	43.53912, 5.66431
Elevation	716 m
Maximum height	50 m max
Access	On foot > 1,000 m
Nearest aerodrome	Pays d'Aix Medical Center Heliport 18 km W · spot 494 m higher
Spot reference	316045

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:07	07:39	17:08	17:39	9 h 29	07:39–08:23 · 16:24–17:08
Sun 22 Nov	07:09	07:40	17:07	17:38	9 h 27	07:40–08:24 · 16:23–17:07
Mon 23 Nov	07:10	07:41	17:06	17:38	9 h 25	07:41–08:26 · 16:22–17:06

Aérodrome de Vinon	Aerodrome	24 km NE	275 m
Aix - Les Milles Airport	Aerodrome	24 km W	112 m

Description

The Pic des Mouches is the highest point of the Sainte Victoire mountain (1011m) and offers a magnificent 360° view over all of Provence. With the Sainte-Baume to the south-east and the Alps to the north-east, it is an excellent place to discover the Provençal landscape. During this walk in the heart of nature, you may encounter typical Mediterranean wildlife and plants such as garrigue spurge or thyme, as well as species found only in the mountains such as the mountain pine. You can take in olive groves, beautiful garrigue, meadows, pine forest and, finally, high-altitude grasslands that are very rich in biodiversity. They are protected under Natura2000.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
