The port of Virignin

Water · Ain

GPS coordinates	45.72494, 5.70504
Elevation	227 m
Maximum height	50 m max
Access	Direct access by car
Nearest aerodrome	Belley - Peyrieu Airfield (LFKY) 3.5 km S · same altitude as the spot
Spot reference	316075

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:12	07:45	17:01	17:34	9 h 16	07:45–08:32 · 16:14–17:01
Sun 22 Nov	07:14	07:46	17:00	17:33	9 h 13	07:46–08:33 · 16:13–17:00
Mon 23 Nov	07:15	07:48	17:00	17:32	9 h 11	07:48–08:35 · 16:13–17:00

Aerodrome	Type	Distance	Elevation
Belley - Peyrieu Airfield	Aerodrome	3.5 km S	225 m
Lavours	Aerodrome	9.5 km NE	234 m
Base Hydro-ULM Rhône Lavours	Seaplane base	11 km NE	239 m
Chambéry-Savoie Airport	Airport	17 km SE	237 m

Description

On the border between the Ain and Savoie departments, a marina with all services has been built on the new Rhône, as the river is navigable for more than 70 kilometers between Seyssel, the Bregnier-Cordon dam and Lac du Bourget. → WARNING The Belley dam is a No Fly Zone, so it is not possible to fly over it. Close to BELLEY.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
