FLIGHT CARD

Generated on 21 November 2026

Gier Aqueduct – Chaponost

Heritage · Rhône

GPS coordinates	45.72343, 4.76300
Elevation	299 m
Maximum height	100 m max
Access	Direct access by car
Nearest aerodrome	Lyon Brindas Airfield (LFKL) 5.2 km W · spot 18 m lower
Spot reference	316175

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:16	07:49	17:05	17:38	9 h 16	07:49–08:35 · 16:18–17:05
Sun 22 Nov	07:17	07:50	17:04	17:37	9 h 13	07:50–08:37 · 16:17–17:04
Mon 23 Nov	07:19	07:51	17:03	17:36	9 h 11	07:51–08:38 · 16:16–17:03

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Lyon Brindas Airfield	Aerodrome	5.2 km W	317 m
Hôpital Edouard-Herriot Heliport	Heliport	9.7 km E	199 m
Aérodrome de Lyon - Corbas	Aerodrome	14 km SE	198 m
Lyon-Bron Airport	Airport	14 km E	201 m

Description

The most monumental part of the Gier Aqueduct, this site features one of the best-preserved aqueducts that supplied water to Lugdunum in the second century. At 550 meters, it is the longest visible row of arches in France!

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
