Borromean Islands, Lake Maggiore, Italy

Water · Italy

GPS coordinates	45.89476, 8.52824
Elevation	214 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Aviosuperficie Mascioni 15 km E · spot 60 m lower
Spot reference	316252

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Calcinate Del Pesce Airport	Aerodrome	21 km SE	243 m
Aviosuperficie Il Picchio	Aerodrome	21 km S	213 m
Aviosuperficie "Marc Ingegno"	Aerodrome	24 km SW	430 m

Description

Pearls of Lake Maggiore, the Borromean Islands bear the name of a Lombard family, the Borromeo. Isola Bella, the most famous and remarkable, is renowned for its 17th-century Baroque castle with rooms richly decorated with murals and paintings (Leonardo da Vinci), its grottoes entirely adorned with pebbles, and its magnificent terraced gardens covered with exotic plants, including orange trees. Take off from Stresa; flying over the islands is prohibited

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
