FLIGHT CARD

Generated on 21 November 2026

Île Madame

Water · Charente-Maritime

GPS coordinates	45.96630, -1.10193
Elevation	-1 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Rochefort-Saint-Agnant (BA 721) Airport (LFDN) 13 km SE · spot 19 m lower
Spot reference	316408

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:40	08:13	17:28	18:00	9 h 14	08:13–09:00 · 16:41–17:28
Sun 22 Nov	07:41	08:14	17:27	18:00	9 h 12	08:14–09:01 · 16:40–17:27

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Rochefort-Saint-Agnant (BA 721) Airport	Airport	13 km SE	18 m
Aérodrome de Marennes - Le Bournet	Aerodrome	16 km S	5 m
St Pierre d'Oléron Airfield	Aerodrome	17 km W	6 m
Centre Hospitalier Heliport	Heliport	22 km N	15 m

Description

Crossing the Passe aux Boeufs between Port-des-Barques and Île Madame On the left bank of the Charente, at Port-des-Barques, a peninsula "at the end of the world", a wide panorama opens up before you over the islands of Madame, Aix and Oléron, and over the seaside resort of Fouras and its Vauban fort... You are between land and sea, facing a magnificent setting, that of the Grand Site de France "Estuaire de la Charente – Arsenal de Rochefort". In any season, at low tide, wearing good shoes, follow the Passe aux Boeufs, a natural tombolo one kilometer long, to begin your discovery of the island. All around you stretches a huge foreshore covered with sand, pebbles and seaweed... And on top of that, a 360° view!

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
