Maroli d'en Bas - Le Chinaillon - Le Grand Bornand

Mountain · Haute-Savoie

GPS coordinates	45.97355, 6.49352
Elevation	1,653 m
Maximum height	120 m max
Access	On foot > 1,000 m
Nearest aerodrome	Altiport du Col de Cenise 6.2 km NW · spot 71 m lower
Spot reference	316558

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:10	07:43	16:57	17:30	9 h 14	07:43–08:30 · 16:10–16:57
Sun 22 Nov	07:11	07:44	16:56	17:29	9 h 12	07:44–08:31 · 16:09–16:56
Mon 23 Nov	07:12	07:45	16:56	17:29	9 h 10	07:45–08:33 · 16:08–16:56

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Altiport du Col de Cenise	Aerodrome	6.2 km NW	1,724 m
Altisurface de Saint-Roch Mayères	Aerodrome	7.6 km E	1,560 m
Centre Hospitalier Heliport	Heliport	12 km E	546 m
Flaine-Hiver Heliport	Heliport	16 km E	1,571 m

Description

From the hamlet of Les Bouts, an alpine pasture road (closed to car traffic) winds along a gentle slope at the foot of the Almet massif to the farms of Maroli d'en bas (1,582 m), a pretty little hamlet with its two alpine chalets and their outbuildings, run by two "cousin" families! These alpine farms are only used in the good season. Close to GRAND-BORNAND

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
