The Super Collet d'Allevard

Mountain · Isère

GPS coordinates	45.38911, 6.13540
Elevation	1,693 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Saint Rémy de Maurienne 11 km E · spot 1,267 m higher
Spot reference	316586

Spot location and restrictions (Drone-Spot map image)

Aérodrome de Chambéry Challes-les-Eaux	Aerodrome	23 km NW	297 m
Altisurface de Valmorel	Aerodrome	23 km E	1,930 m

Description

Located in the Belledonne massif in Isère, at an altitude of 1450 metres, Le Collet is a family ski resort. Only 12 kilometres from Allevard-les-Bains, and enjoying a privileged location between Grenoble and Chambéry, the Le Collet resort offers a friendly, family atmosphere, with exceptional panoramas over the Grésivaudan valley, the Bauges massif and the Chartreuse. A family ski resort par excellence, Le Collet appeals to skiers of all levels thanks to its ski area of 35 km of slopes, 27 runs and 11 lifts. It spreads over 3 sides: Pré-rond, Malatrait and the Super Collet, the highest side of the resort. Warm and welcoming, Le Collet attracts families from all over France every winter. Also called "Collet d'Allevard" by those who know the resort well, Le Collet is a multi-activity resort, making it a great place to come and have fun with family, friends or as a couple.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
