FLIGHT CARD

Generated on 21 November 2026

Cap Blanc Nez / Wissant

Water · Pas-de-Calais

GPS coordinates	50.91134, 1.68947
Elevation	35 m
Maximum height	100 m max
Access	On foot > 1,000 m
Nearest aerodrome	Saint-Inglevert Aerodrome (LFIS) 4.6 km SE · spot 82 m lower
Spot reference	316842

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:42	08:19	16:59	17:36	8 h 40	08:19–09:13 · 16:05–16:59
Sun 22 Nov	07:43	08:21	16:58	17:35	8 h 37	08:21–09:15 · 16:03–16:58
Mon 23 Nov	07:45	08:22	16:57	17:34	8 h 34	08:22–09:17 · 16:02–16:57

Saint-Inglevert Aerodrome	Aerodrome	4.6 km SE	117 m
Coquelles Eurotunnel Heliport	Heliport	7.4 km E	9 m
Calais-Dunkerque Airport	Airport	19 km E	4 m
Boulogne Sur Mer Centre Hospitalier Heliport	Heliport	21 km S	85 m

Description

- Where land and sea meet at the Two Capes site, farmland stretching as far as the eye can see on one side blends with the immensity of the Channel. - Omnipresent on the land of the Two Capes, farming shows its full splendor in this landscape just steps from Cap Blanc Nez, whose white chalk cliffs reveal all their color on this sunny May day.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
