Uzès, Eure Valley, Alzon River

Unusual · Gard

GPS coordinates	44.00434, 4.42473
Elevation	76 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Uzès Airfield (LFNU) 9.2 km N · spot 194 m lower
Spot reference	316877

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:13	07:45	17:11	17:43	9 h 26	07:45–08:30 · 16:27–17:11
Sun 22 Nov	07:15	07:46	17:11	17:42	9 h 24	07:46–08:31 · 16:26–17:11

Aerodrome	Type	Distance	Elevation
Uzès Airfield	Aerodrome	9.2 km N	270 m
Nîmes Courbessac Airport	Aerodrome	17 km S	60 m
Aérodrome d'Alès Cévennes	Airport	24 km W	204 m

Description

Located at the foot of Uzès, the Eure Valley is one of the favorite spots of locals and tourists alike. Steeped in history, it is also a wonderful stop for a hike and a cultural outing. Well known to the people of Uzès for their Sunday stroll, the Eure Valley's reputation goes well beyond the town's borders and has even earned worldwide recognition! It all begins in the 1st century AD. At that time, the Romans tapped an abundant water source at the edge of the Alzon, in Uzès, and carried it to Nîmes via a 50 km aqueduct, of which the Pont du Gard was a part. The Pont du Gard is, moreover, the only site in France recognized as part of the "UNESCO Ancient Route"!

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
