Castello di Verrès

Heritage · Italy

GPS coordinates	45.66924, 7.69764
Elevation	490 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	Campo di Volo Chatelair 19 km NW · spot 33 m higher
Spot reference	316905

Altiporto Chamois	Aerodrome	19 km N	1,707 m
Aviosuperficie Ivrea Montalto Dora	Aerodrome	23 km SE	246 m

Description

Majestic, essential, powerful: these are the three adjectives that best describe this castle. A stone cube built at the end of the 11th century on the rock overlooking the town of Verrès, in perfect harmony with the surrounding landscape. The military character of the building blends perfectly with elegant carved stone details adorning its windows, doors and monumental fireplace mantels. A superb staircase with flying buttresses reaches the upper floors. Near PONT-SAINT-MARTIN

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
