FLIGHT CARD

Generated on 25 November 2026

Castel Savoia – Gressoney-Saint-Jean

Heritage · Italy

GPS coordinates	45.76526, 7.82795
Elevation	1,414 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Aviosuperficie di Meggiana 17 km E · spot 215 m lower
Spot reference	316908

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Aviosuperficie di Meggiana	Aerodrome	17 km E	1,629 m
Altiporto Chamois	Aerodrome	18 km NW	1,707 m
Pian Rosà	Heliport	21 km NW	3,488 m

Description

Nestled in a coniferous forest, Castel Savoia was designed in the early 20th century for Queen Margherita of Savoy, a great lover of this Aosta Valley territory. It is a curious turreted building in medieval style, covered in local stone, and inside it keeps the original decorations, but not the furniture, and a beautiful oak staircase. Next to the castle, the alpine garden with a thousand mountain plants and lush flowers extends over an area of about 1,000 square meters. Near PONT-SAINT-MARTIN

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

This country applies the European drone rules (open category); it may add its own zones and conditions.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
