NEVACHE - Clarée Valley

Mountain · Hautes-Alpes

GPS coordinates	45.02452, 6.71391
Elevation	2,398 m
Maximum height	120 m max
Access	On foot > 1,000 m
Nearest aerodrome	Centre Hospitalier Heliport 15 km SW · spot 1,065 m higher
Spot reference	316963

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sun 22 Nov	07:08	07:40	16:58	17:31	9 h 18	07:40–08:26 · 16:12–16:58
Mon 23 Nov	07:09	07:41	16:58	17:30	9 h 16	07:41–08:28 · 16:12–16:58

Description

The NEVACHE valley is a glacial valley in France located in the Hautes-Alpes, close to Montgenèvre and Briançon and right against the French-Italian border. It is a protected natural site, offering exceptional landscapes and a preserved natural and cultural heritage. The Clarée river runs through it. Located between 1,400 and 2,000 meters in altitude, the valley, which gets a lot of snow in winter, is a patchwork of alpine pastures and larch forests.

Scan to open the up-to-date spot page: weather, map and restrictions.

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
