FLIGHT CARD

Generated on 21 November 2026

Prapoutel Les Sept Laux – Les Adrets

Heritage · Isère

GPS coordinates	45.25634, 6.00394
Elevation	1,404 m
Maximum height	120 m max
Access	On foot < 1,000 m
Nearest aerodrome	Altiport du Col De Belledonne 10 km S · spot 1,396 m lower
Spot reference	316994

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:10	07:42	17:01	17:34	9 h 18	07:42–08:28 · 16:15–17:01
Sun 22 Nov	07:11	07:44	17:01	17:33	9 h 16	07:44–08:30 · 16:14–17:01
Mon 23 Nov	07:12	07:45	17:00	17:32	9 h 14	07:45–08:31 · 16:13–17:00

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Altiport du Col De Belledonne	Aerodrome	10 km S	2,800 m
Aérodrome de Grenoble Le Versoud	Aerodrome	13 km W	220 m
Altisurface du Glacier de la Barbaratre	Aerodrome	15 km SE	3,008 m
Altisurface du Glacier de l'Étendard	Aerodrome	16 km SE	2,900 m

Description

The 7 Laux resort is an emblematic place in the Belledonne massif. Overlooking the Grenoble basin and the Grésivaudan valley, it offers nature and mountain lovers a fantastic world and splendid landscapes. In summer, the 7 Laux resort is the ideal place for plenty of sports activities: rail luge, mountain biking, all-terrain scooter, treetop adventure courses... Close to GRENOBLE

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
