FLIGHT CARD

Generated on 21 November 2026

Plateau de Vinouve - Les Karellis - Monricher-Albanne

Mountain · Savoie

GPS coordinates	45.21340, 6.40374
Elevation	2,127 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	Altisurface de Valloire - Bonnenuit 10 km S · spot 447 m higher
Spot reference	317011

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:08	07:41	17:00	17:32	9 h 19	07:41–08:27 · 16:14–17:00
Sun 22 Nov	07:10	07:42	16:59	17:31	9 h 17	07:42–08:28 · 16:13–16:59
Mon 23 Nov	07:11	07:43	16:58	17:31	9 h 15	07:43–08:30 · 16:12–16:58

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Altisurface de Valloire - Bonnenuit	Aerodrome	10 km S	1,680 m
Altisurface de Praz Sauge et Pré Vernay	Aerodrome	12 km W	1,816 m
Altisurface du Glacier Lombard	Aerodrome	13 km SW	3,260 m
Altisurface de la Pointe de l'Ouillon	Aerodrome	15 km W	2,380 m

Description

The Vinouve plateau is easily reached from the Karellis resort by the chairlift of the same name, which quickly gains height, dropping hikers off at 2,128 meters of altitude. As soon as you step off the chair, the panorama is simply grandiose: to the north stand the impressive limestone cliffs of the Croix des Têtes (2,491 m) in front of the Grand Perron des Encombres (2,824 m), then the eye sweeps across gentler terrain stretching toward the Col du Galibier, while the Arc valley can be made out, impressive, some 1,600 meters below. Near SAINT-JEAN-DE-MAURIENNE

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
