FLIGHT CARD

Generated on 22 November 2026

Lac de La Cour – Le Chinaillon

Water · Haute-Savoie

GPS coordinates	45.97361, 6.47485
Elevation	1,419 m
Maximum height	120 m max
Access	Direct access by car
Nearest aerodrome	Altiport du Col de Cenise 5.6 km N · spot 305 m lower
Spot reference	317041

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sun 22 Nov	07:11	07:44	16:56	17:29	9 h 12	07:44–08:31 · 16:09–16:56
Mon 23 Nov	07:12	07:45	16:56	17:29	9 h 10	07:45–08:33 · 16:08–16:56
Tue 24 Nov	07:14	07:47	16:55	17:28	9 h 08	07:47–08:34 · 16:07–16:55

Nearby aerodromes

Aerodrome	Type	Distance	Elevation
Altiport du Col de Cenise	Aerodrome	5.6 km N	1,724 m
Altisurface de Saint-Roch Mayères	Aerodrome	9.0 km E	1,560 m
Centre Hospitalier Heliport	Heliport	14 km E	546 m
Flaine-Hiver Heliport	Heliport	17 km E	1,571 m

Description

Lac de La Cour above Le Chinaillon is reached in 50 minutes on foot along a wide track, first paved and then stony, but you can also drive there. The panoramic view is simply grandiose: to the west, the imposing silhouettes of the Jalouvre (2,408 m) and the Pointe du Midi (2,364 m) dominate the scene, while to the north rises the Tête d'Auferrand (1,981 m). To the south, the horizon is closed off by the Mont Lachat de Chatillon (2,050 m). Walk around the lake to get more shooting angles. Near LE GRAND-BORNAND

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
