FLIGHT CARD

Generated on 21 November 2026

The Mont de Sombre - Wissant, Hervelinghen

Water · Pas-de-Calais

GPS coordinates	50.89944, 1.71342
Elevation	147 m
Maximum height	50 m max
Access	On foot > 1,000 m
Nearest aerodrome	Saint-Inglevert Aerodrome (LFIS) 2.4 km SE · spot 30 m higher
Spot reference	317073

Spot location and restrictions (Drone-Spot map image)

Sun (local times, UTC+01:00)

Day	Dawn	Sunrise	Sunset	Dusk	Day length	Golden hour
Sat 21 Nov	07:42	08:19	16:59	17:36	8 h 40	08:19–09:13 · 16:05–16:59

Coquelles Eurotunnel Heliport	Heliport	6.1 km E	9 m
Calais-Dunkerque Airport	Airport	18 km E	4 m
Boulogne Sur Mer Centre Hospitalier Heliport	Heliport	20 km S	85 m

Description

- At the top of the Mont de Sombre, rising to 157 meters above sea level, the 360-degree view on the sea side stretches from Cap Blanc Nez in the north to Cap Gris Nez in the south, and on a clear day you can see the English coast. - On the land side, the village of Hervelinghen at the bottom of the valley, the Mont de Couple (the highest point of the Opal Coast at 164 meters) and the Bay of Wissant

Before every flight: check the UAS zones map, NOTAMs and temporary areas, the weather and the Kp index.

Preparing the flight

Pre-flight Check-List

- ☐ Area checked: UAS zones, restrictions, protected areas
- ☐ NOTAMs and temporary areas checked
- ☐ Weather: wind, gusts, rain, visibility; Kp index
- ☐ Operator number displayed on the drone
- ☐ Training certificate or licence with me
- ☐ Third-party liability insurance checked
- ☐ Batteries charged: drone, controller, phone
- ☐ Propellers, motors and frame in good condition
- ☐ Memory card inserted and empty
- ☐ Software up to date, compass and IMU calibrated
- ☐ Return to home: home point and return height set
- ☐ Electronic signalling or remote ID active
- ☐ Take-off area clear, people informed and at a distance
- ☐ Observer present for FPV flights

Key rules of the open category

Recreational flying in France: European open-category rules, applied by the DGAC.

- Maximum height: 120 m above the ground, lower where a restriction requires it.
- Always keep the drone in sight; when flying FPV, an observer keeps it in sight next to you.
- Never fly over crowds and keep the distances of your subcategory (A1, A2 or A3).
- Respect UAS geographical zones: around aerodromes, prohibited or restricted areas, protected areas, sensitive sites.
- Register as an operator if the drone weighs 250 g or more or carries a camera (toys excepted), and display the number on the drone.
- Training: online A1/A3 certificate from 250 g or for a class C1 drone; A2 certificate to fly closer to people with a class C2 drone.
- Always give way to manned aircraft and land if one approaches.
- Respect privacy: no images that identify people without their consent; aerial photography is prohibited in some areas.
- Check your third-party liability insurance.
- In France: registration and training on AlphaTango (DGAC); a drone of 800 g or more must broadcast electronic signalling (or the remote ID of class-marked drones).

Non-exhaustive summary: rules change. Reference: the DGAC open-category guide and the country's regulations.
